WORK EXPERIENCE

Design Engineer
GTE Ltd.

01/2005 - 02/2021   *Sofia*
Achievements/Tasks

- broad experience in operation with traditional and modern geodetic instruments;
- usage of software program products for transformation of geodetic networks, processing geodetic measurements;
- operation with CAD software products, creation of specialized and cadastral maps in the sphere of linear infrastructure;
- Familiar with Bulgarian legislation and regulations in the area of spatial development, geodesy and cadastre.

Doctoral Student
UACEG

10/2005 - 06/2010   *Sofia*
Achievements/Tasks

- improving the qualification;
- become a research scientist and higher education lecturer;
- highly qualified specialist in different theoretical and applied research in the field of higher geodesy.

Diploma project, Erasmus Student Network
TU Wien

03/2004 - 07/2004   *Vienna*
Achievements/Tasks

- practice and learn languages in a foreign country;
- create higher education projects;
- meeting and working with people from all over the world.

EDUCATION

PhD, Master Engineer in Geodesy
UACEG

09/1999 - 06/2010   *Sofia*

Java Full-Stack Developer
SoftUni

01/2019 - 05/2021   *Sofia*

PROJECTS

Single Page Application for Online Store ↗
" Frond-end: ReactJS; Bach-end: Serverless framework with Firebase; Database: Firebase Realtime Database"

Multi Page Application for E-commerce ↗
" Frond-end: Thymeleaf: Bach-end: Spring Framework with Java; Database: MySQL with Workbench "

SOFT SKILLS

Comunication   Teamwork   Flexibility

Confidence   Problem solving

Self-management

TECHNICAL SKILLS

Languages
Java, JavaScript, HTML, CSS

Frameworks
SpingMVC, ReactJS; Database: MySQL, Firebase; Software: IntelliJ IDEA, Visual Studio Code

PUBLICATIONS

International conference "InfoTel" (2005)
- "Research of the Accuracy and the Efficiency of a DGPS navigation station", under the guidance of Ass.Professor Zdravchev.

Journal „Geomedia" (2010)
- „Errors in GPS measurements and their interpretation";
- „Random signals and GPS measurements. Kalman filter"

UACEG - Dissertation (2015)
- "Kinematic applications of GNSS and processing of DGPS/DGNSS measurements with Kalman filter ."

CERTIFICATES

Diploma for Java Full-Stack Developer
(01/2019 - 05/2021) ↗
